SUMMARY

Experienced software engineer with 5+ years of expertise in delivering scalable software solutions. Currently driving impactful projects at InsideMaps Inc., collaborating with cross-functional teams to exceed goals. Committed to staying ahead of emerging technologies and optimizing processes for success.

EXPERIENCE

Senior Software Engineer, InsideMaps Inc — United States, CA (Remote) Apr 2020 – Present

- Automated FTP workflows with a script, **reducing manual effort to 0%**, ensuring **100% timely** and error-free data updates, and accelerating client access to critical information.
- Built a dynamic questionnaire configurator, automating manual processes, enabling real-time customization, version control, and logs tracking, resulting in a **30% improvement** in operational efficiency for clients and operators.
- Revamped the 3D asset and material library into a unified, user-friendly platform with advanced filtering and analytics, enhancing accessibility and optimizing material usage tracking.
- Developed a dynamic HOA dashboard with advanced CRUD operations and analytics, **reducing manual workload by 50%** through automated webhook notifications and **optimizing workflows by 55%**. **Expanded client base from 1 to 3**, driving efficiency and improving data management.
- Developed a 3D tour configurator enabling clients to customize interiors in real-time, offering personalized visualization and enhanced interactive exploration.

Software Engineer, Unishopr.com — Dhaka, BD Apr 2019 – Apr 2020

- Led the redesign of Unishopr, enhancing user experience and optimizing interface functionality.
- Developed and integrated new admin panels, boosting marketing efficiency and operational control.
- Built a real-time scraper for the “Today’s Deal” section, **increasing deal freshness by 70%**.

Android Developer, Business Accelerate BD Ltd. — Dhaka, BD Feb 2018 – Jan 2019

- Delivered high-impact Android apps for top clients like Coke and Pepsi, ensuring flawless functionality and UX.
- Developed an auto APK update module, streamlining version management and boosting user engagement.
- **Reduced order data loss to 0%** with a robust offline sync module that updates automatically when online.
- **Enhanced operational efficiency by 45%**, streamlining workflows in the redesigned app.

EDUCATION

Military Institute of Science and Technology — B.Sc. in Computer Science and Engineering 2013 – 2016

- Participated in 2 international robotics competitions: URC in the USA and ERC in Poland.
